

Date: 2st June 2022.

The Kow Company Ltd.

Assalamalaikum,

I am Farzin Anan Mukit, a fresher B.Sc. (Engg) in CSE from PSTU. As a fresh graduate and being enthusiastic about software engineering and c# .Net Core, I was thrilled to see the job post of your reputed company. I want to let you know that I fulfill all the mandatory requirements of the position.

In my educational period I along with my team worked on Undergraduate Admission System 2022 of PSTU (<https://admission.pstu.ac.bd/Home/About>) using C#, .Net Core using SQL SSMS. Main responsibility of this project was to apply queries and bulk operation on GST student's data set of over 100000 students, and select the eligible ones. We used Crystal Reports to generate the reports for each student and SSL Commerz as for the payment getaway. The complete project was done in MVC pattern. Also we started P

Also, I have a clean knowledge of OOP and design patterns as I have developed various android applications using OOP and Java. I am currently working for a startup called MedGetBD and developing an e-commerce and medical support website using .Net 6 which is the latest. Before that I worked as a freelancer developing various website for clients. I also designed many UI to get good knowledge of latest design scheme.

During my free time I worked as a volunteer for ANYVS and Lightshore Foundation and found myself comfortable as a team worker.

I will welcome the chances to discuss my enthusiasm about Software Engineering with you and I will value the opportunities to work with a professional team like yours and learn from.

Best Regards

Farzin Anan Mukit

B.Sc (Engg) in CSE.
